Interpon D Flat Matt

Non-reflective superdurable powder coatings

When you design, you want to create the extraordinary. You want your buildings to be on trend, to stand out from the crowd and to build a lasting legacy. Interpon Flat Matt enables you to give ultra matt surfaces a glint of brilliance and luminescence, to create surfaces that allow light to dance across them, and to imagine buildings that inspire.

The new Interpon Flat Matt creates a fine mica effect that transforms the appearance of non-reflective surfaces depending on the way the light reflects on them. And with superdurability that is backed by a 25-year warranty, architects can now provide their creations with the highest levels of protection and the best quality finish.

The Interpon Flat Matt range is enabling architects to unlock new and exciting potential in the world of architectural design and comes with a host of other benefits.

Transparency and reliability

Creating futures that last

You can rely on us. Our Interpon D2525 Flat Matt range delivers on its promised durability levels in terms of color retention and film integrity.

- Offering up to 25 years global warranty on the coating performance when applied by an Interpon D Approved Applicator.
- Meets the performance requirements of AAMA 2604.

Building a sustainable future

The Interpon D2525 Flat Matt range is a family of products that is not just helping us to imagine the future; it is also protecting it. Backed by an Environmental Product Declaration (EPD), the raw materials, manufacture and transportation associated with creating Interpon D have been assessed by an independent third-party for transparent sustainability credentials.

THE INTERNATIONAL EPD® SYSTEM

Color range

White YA25BA
